

Resetting the P-ION to Factory Defaults

1 Open the front cover

Pull front cover up gently from the middle to remove it

2 Press RESET, then PROG

With the device powered, press and release the RESET button.

The LEDs will be flashing in sequence for a short while.

Press and release the PROG button.

3 Reload your app

Default IP address:
192.168.1.240

Perform a “Put” from Workplace to reinstall your APP and required kits back to the device

**CAUTION: YOU WILL
LOSE ALL DATA AND
CURRENT IP ADDRESS**
